ARJIT KUMAR

Noida, India | work.arjitgupta@gmail.com | +91-8604623911
vercel.com/arjit | linkedin.com/in/arjit-kumar | github.com/Arjit2716

Profile Summary

- Aspiring **Software Development Engineer** with hands-on experience in **full-stack development, backend systems, and AI/ML-based applications**.
- Skilled in building **scalable FAST APIs, real-time web platforms, and intelligent data-driven solutions** using modern tech stacks.
- Recognized for **problem-solving ability, technical innovation, and teamwork** in projects and hackathons.

Education

G L Bajaj Institute of Technology And Management, Gr. Noida, India
Bachelor of Technology - Computer Science And Engineering (2023-2027).

Skills

- **Languages:** C++, Python, GoLang, JavaScript, TypeScript, C#, Java, SQL
- **ML/DL:** Scikit-learn, Seaborn, OpenCV, LangChain, TensorFlow, PyTorch
- **Cloud & DevOps:** Docker, Kubernetes, GitHub Actions
- **Frameworks:** Django, FastAPI, Flask, Node.js, Express, React

Projects

- **AI Dental Health Assessment System | *(Python, TensorFlow, Scikit-learn, OpenCV, Pandas, Matplotlib, Jupyter Notebook) | (Link) →***
  - Built an **AI-based dental diagnosis model** to analyze oral images, implementing image preprocessing, feature engineering, and supervised learning for reliable classification performance.
- **Meta_Morph– Smart File Metadata Management System | *(React.js, Flask, Python, ExifTool, SQLite, HTML, CSS, JavaScript) | (Link) →***
  - Developed a web-based system for file upload, **metadata extraction**, controlled metadata editing, and bulk operations with **secure export and download features**.
- **Talk_Sphere -Real-Time Messaging Application | *(React.js, Tailwind CSS, Node.js, Express.js, MongoDB, Socket.io, JWT, Cloudinary) | (Link)→***
  - Developed a full-stack chat platform featuring **real-time messaging**, secure user authentication, profile customization, image sharing, and responsive UI with theme support using modern web technologies.
  - Ensured smooth user experience through **state management, error handling, and real-time updates**.
- **Apple Clone Website | *(HTML5, Tailwind CSS, JavaScript, Responsive Design) | (Link)→***
  - Created a **responsive Apple website clone** using React.js and Tailwind CSS, featuring reusable UI components and smooth navigation with dynamic rendering.
  - Implemented **smooth navigation and dynamic rendering** to enhance user experience across devices.

Research Experience

- **AI Dental Health Assessment System (Research Project)** – *Python, TensorFlow, OpenCV, Scikit-learn*
  - Developed **CNN-based** dental image classification models achieving **94% accuracy**.

Awards & Achievements

- **Runner-Up Medha Device Hackathon (BETIC, IIT Bombay, 2025)**: Built an AI Dental Health Assessment System using deep learning, achieving 94% accuracy in oral health classification.
